

Combined Joint Task Force

Operation Inherent Resolve
APO AE 09306

November 1, 2016
Release # 20161101-01
FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIL Terrorists in Syria and Iraq

SOUTHWEST ASIA- On Oct. 31, Coalition military forces conducted 13 strikes against ISIL terrorists in Syria and Iraq. In Syria, Coalition military forces conducted two strikes using attack aircraft against ISIL targets. Additionally in Iraq, Coalition military forces conducted 11 strikes coordinated with and in support of the Government of Iraq using attack, bomber, fighter, rotary and remotely piloted aircraft and rocket artillery against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

Syria

- Near Dayr Az Zawr, two strikes destroyed two ISIL oil tanker trucks and two oil pump jacks.

Iraq

- Near Al Baghdadi, one strike destroyed an ISIL VBIED.
- Near Haditha, one strike engaged an ISIL improvised weapons facility.
- Near Mosul, six strikes engaged four ISIL tactical units; destroyed nine vehicles, a VBIED, and a VBIED facility; damaged 20 vehicles; and damaged a tunnel.
- Near Rawah, three strikes engaged an ISIL vehicle and destroyed four VBIEDs and a front end loader.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a

Operation Inherent Resolve

APO AE 09306

compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, Denmark, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
