

Combined Joint Task Force

Operation Inherent Resolve
APO AE 09306

November 5, 2016
Release # 20161105-01
FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIL Terrorists in Syria and Iraq

SOUTHWEST ASIA- On Nov. 4, Coalition military forces conducted 23 strikes against ISIL terrorists in Syria and Iraq. In Syria, Coalition military forces conducted eight strikes using attack and remotely piloted aircraft against ISIL targets. Additionally in Iraq, Coalition military forces conducted 15 strikes coordinated with and in support of the Government of Iraq using attack, bomber, fighter, rotary, and remotely piloted aircraft and rocket artillery against ISIL targets.

Syria

- Near Ayn Isa, three strikes engaged two ISIL tactical units and destroyed three vehicles and an unmanned aerial vehicle.
- Near Mar'a, five strikes engaged five ISIL tactical units and destroyed three fighting positions.

Iraq

- Near Bayji, one strike destroyed an ISIL generator.
- Near Mosul, nine strikes engaged five ISIL tactical units and four staging areas; destroyed five vehicles, three weapons caches, three mortar systems, a storage facility, a VBIED, and an ISIL-held building; and damaged an ISIL supply route, a bridge, and a tunnel.
- Near Tal Afar, five strikes engaged an ISIL vehicle depot, a headquarters building, and a weapons production facility, and destroyed a mortar system.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or

impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, Denmark, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
