Release # 20160208-01  
FOR IMMEDIATE RELEASE

## **Military Strikes Continue Against ISIL Terrorists in Syria and Iraq**

**SOUTHWEST ASIA-** On Feb. 7, coalition military forces continued to attack ISIL terrorists in Syria and Iraq. In Syria, coalition military forces conducted one strike using fighter aircraft. Separately in Iraq, coalition military forces conducted nine strikes coordinated with and in support of the Government of Iraq using attack and fighter aircraft against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

### **Syria**

- Near Al Hasakah, one strike suppressed an ISIL rocket position.

### **Iraq**

- Near Al Huwayjah, one strike struck an ISIL tactical unit and destroyed an ISIL tunnel.
- Near Habbaniyah, one strike destroyed an ISIL vehicle borne improvised explosive device (VBIED).
- Near Kisik, one strike struck an ISIL tactical unit and destroyed an ISIL heavy machine gun and an ISIL fighting position.
- Near Mosul, four strikes struck a large ISIL tactical unit and destroyed five ISIL fighting positions and suppressed an ISIL rocket position and an ISIL mortar position.
- Near Ramadi, two strikes destroyed an ISIL vehicle, an ISIL tactical vehicle, an ISIL VBIED, and an ISIL anti-air artillery piece.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or

facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, France, Jordan, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
