

Combined Joint Task Force

Operation Inherent Resolve

APO AE 09306

July 24, 2016

Release # 20160724-01

FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIL Terrorists in Syria and Iraq

SOUTHWEST ASIA- On July 23, coalition military forces continued to attack ISIL terrorists in Syria and Iraq. In Syria, coalition military forces conducted nine strikes using bomber, attack, fighter, and remotely piloted aircraft against ISIL targets. Additionally in Iraq, coalition military forces conducted four strikes coordinated with and in support of the Government of Iraq using fighter aircraft against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

Syria

- Near Ar Raqqa, one strike struck an ISIL improvised explosive device factory.
- Near Manbij, eight strikes struck seven separate ISIL tactical units and destroyed nine ISIL fighting positions and an ISIL command and control node.

Iraq

- Near Habbaniyah, one strike struck an ISIL tactical unit and destroyed an ISIL fighting position.
- Near Qayyarah, one strike struck an ISIL tactical unit and destroyed two ISIL mortar systems, 12 ISIL rockets, 19 ISIL rocket rails, seven ISIL oil tankers, and an ISIL assembly area and denied ISIL access to terrain.
- Near Ramadi, one strike struck an ISIL tactical unit and destroyed an ISIL fighting position, an ISIL vehicle, and an ISIL weapons cache.
- Near Sultan Abdallah, one strike destroyed an ISIL weapons storage facility.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft

Combined Joint Task Force

Operation Inherent Resolve
APO AE 09306

delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
