Release # 20161014-01
FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIL Terrorists in Syria and Iraq

SOUTHWEST ASIA- On Oct. 13, coalition military forces conducted 22 strikes against ISIL terrorists in Syria and Iraq. In Syria, coalition military forces conducted 13 strikes using attack, bomber, fighter, and remotely piloted aircraft against ISIL targets. Additionally in Iraq, coalition military forces conducted nine strikes coordinated with and in support of the Government of Iraq using attack, bomber, and fighter aircraft against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

Syria

- Near Abu Kamal, one strike engaged an ISIL supply route.
- Near Al Shadaddi, six strikes engaged six ISIL tactical units and destroyed four fighting positions, two supply caches, and a vehicle.
- Near Ayn Isa, one strike engaged an ISIL tactical unit and destroyed a fighting position.
- Near Dayr Az Zawr, four strikes destroyed seven ISIL oil well heads.
- Near Palmyra, one strike engaged an ISIL tactical unit and destroyed two vehicles.

Iraq

- Near Ar Rutbah, one strike destroyed an ISIL vehicle.
- Near Kisik, one strike engaged an ISIL staging area and destroyed two tunnels.
- Near Mosul, five strikes engaged an ISIL tactical unit and a chemical weapons facility; destroyed three tunnel entrances, a tunnel, a rocket rail, a vehicle, and a trench; and damaged a trench network.
- Near Sultan Abdallah, two strikes engaged an ISIL weapons factory and destroyed two boats.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single

aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, Denmark, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
