The Nadia's Initiative (NI), the International Organization for Migration (IOM) and the United States Agency for International Development (USAID) are working together to scale up support to Yazidi survivors of genocide.

The USAID, IOM and NI will assist members of the community who survived the genocide in accessing durable solutions through the construction of new housing units in close proximity to the old town, alongside other tailored measures to help families feel safe, heard, and supported in their recovery.

The IOM Iraq and NI will also support the community's memorialization efforts, through the conversion of select sites into memorials, and measures to protect the cemetery where the remains of individuals exhumed from Kocho's mass graves are now being reburied. Read more: <https://bit.ly/3rPliS5>

Canada in Iraq increases support to Iraq's stabilization efforts by CAD 10 million. This will support the United Nations Development Programme (UNDP) Iraq's efforts to restore critical infrastructure and services, ensuring Iraqis return home safely.

The projects will focus on rehabilitating public infrastructure, delivering essential services, clearing the explosive remnants of war and local peacebuilding efforts to support the reintegration of internally displaced peoples affiliated with Daesh.

The projects, funded through the Peace and Stabilization Operations Program, are aligned with the Global Coalition against Daesh's stabilization efforts in Iraq.

Thank you Canada for supporting stabilization efforts to provide a brighter future for the people of Iraq.

More than half of Syria's population does not have enough to eat after a decade of conflict. The USAID has been partnering with World Food Programme for the Middle East and North Africa (WFP-MENA) and their local partners on the ground. Over the past 4 years, their support through one local partner in northern Syria has:

- Provided food to >500,000 people.
- Delivered >72,000 tons of food.
- Used >400 trucks to deliver food.
