FOR IMMEDIATE RELEASE

CJTF-OIR Strike Summary September 1-September 30, 2019

SOUTHWEST ASIA – Combined Joint Task Force – Operation Inherent Resolve and its partners continue to target and pursue the enduring defeat of Daesh.

CJTF-OIR and partner forces have liberated nearly 110,000 square kilometers (42,471 square miles) from Daesh. As a result, 7.7 million people no longer live under Daesh oppression. CJTF-OIR remains committed to the enduring defeat of Daesh to improve conditions for peace and stability in the region and to protect all our homelands from the Daesh terrorist threat.

Strike Summary

Between September 1 and September 30, 2019, CJTF-OIR conducted 28 strikes consisting of 33 engagements against Daesh targets in Iraq. CJTF-OIR engaged 33 Daesh tactical units, destroyed two tunnels, three weapons caches, 10 fighting positions, one bed-down location, two buildings, and two safe-houses.

Between September 1 and September 30, 2019 CJTF-OIR conducted zero strikes and zero engagements against Daesh targets in Syria.

This CJTF-OIR strike release contains all strikes conducted by fighter, attack, bomber, rotary-wing, or remotely piloted aircraft, rocket propelled artillery and ground-based tactical artillery.

A strike, as defined in the CJTF-OIR release, refers to one or more kinetic engagements that occur in roughly the same geographic location to produce a single, sometimes cumulative effect in that location. For example, a single aircraft delivering a single weapon against a lone Daesh vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of Daesh-held buildings and weapon systems in a compound, having the cumulative effect of making that facility harder or impossible to use. Strike assessments are based on initial reports and may be refined.

CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.
