

# Combined Joint Task Force

Operation Inherent Resolve  
APO AE 09306

---

July 02, 2016  
Release # 20160702-01  
FOR IMMEDIATE RELEASE

## **Military Strikes Continue Against ISIL Terrorists in Syria and Iraq**

**SOUTHWEST ASIA-** On July 1, coalition military forces continued to attack ISIL terrorists in Syria and Iraq. In Syria, coalition military forces conducted three strikes using attack and remotely piloted aircraft against ISIL targets. Additionally in Iraq, coalition military forces conducted 15 strikes coordinated with and in support of the Government of Iraq using attack, fighter, and remotely piloted aircraft against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

### **Syria**

- Near Manbij, three strikes struck two separate ISIL tactical units and destroyed an ISIL fighting position.

### **Iraq**

- Near Al Baghdadi, five strikes struck two ISIL improvised weapons factories, an ISIL weapons cache, an ISIL staging facility, and an ISIL bed down location.
- Near Bayji, one strike destroyed an ISIL tunnel entrance and an ISIL cave entrance and denied ISIL access to terrain.
- Near Habbaniyah, two strikes destroyed two ISIL front-end loaders and two ISIL vehicles.
- Near Qayyarah, four strikes struck an ISIL tactical unit and destroyed an ISIL-used road, two ISIL assembly areas, and an ISIL checkpoint and denied ISIL access to terrain.
- Near Ramadi, two strikes struck two separate ISIL tactical units and destroyed four ISIL vehicles and an ISIL boat.
- Near Sinjar, one strike suppressed an ISIL mortar system.

Strike assessments are based on initial reports. All aircraft returned to base safely.

# Combined Joint Task Force

Operation Inherent Resolve  
APO AE 09306

---

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
