September 6, 2016  
Release # 20160906-01  
FOR IMMEDIATE RELEASE

## **Military Strikes Continue Against ISIL Terrorists in Syria and Iraq**

**SOUTHWEST ASIA-** On Sept. 5, coalition military forces conducted 14 strikes against ISIL terrorists in Syria and Iraq. In Syria, coalition military forces conducted seven strikes using attack and fighter aircraft against ISIL targets. Additionally in Iraq, coalition military forces conducted seven strikes coordinated with and in support of the Government of Iraq using bomber, fighter, and attack aircraft against ISIL targets.

The following is a summary of the strikes conducted against ISIL since the last press release:

### **Syria**

- Near Ar Raqqa, two strikes destroyed two ISIL oil pump jacks, an oil tank, and a headquarters building.
- Near Dayr Az Zawr, three strikes destroyed 13 ISIL oil tanker trucks and a tractor trailer.
- Near Manbij, two strikes engaged an ISIL tactical unit and destroyed a fighting position.

### **Iraq**

- Near Bayji, one strike destroyed an ISIL rocket rail and a cave entrance.
- Near Kisik, one strike destroyed two ISIL fighting positions, two tunnel entrances, an observation post, and a rocket firing position.
- Near Mosul, four strikes engaged three ISIL tactical units and destroyed an assembly area, a fighting position, a vehicle, and a headquarters building.
- Near Ramadi, one strike destroyed a rocket system.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location. So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft

---

delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use. Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, Denmark, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
