

Combined Joint Task Force

Operation Inherent Resolve

APO AE 09306

December 27, 2016

Release # 20161227-01

FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIL Terrorists in Syria and Iraq

SOUTHWEST ASIA – On Dec. 26, Coalition military forces conducted 16 strikes against ISIL terrorists in Syria and Iraq. In Syria, Coalition military forces conducted 12 strikes using attack, fighter, and remotely piloted aircraft against ISIL targets. Additionally in Iraq, Coalition military forces conducted four strikes coordinated with and in support of the government of Iraq using attack, bomber, and fighter aircraft against ISIL targets.

Syria

- Near Abu Kamal, one strike destroyed an oil well head.
- Near Ar Raqqa, nine strikes engaged three ISIL tactical units; destroyed six VBIEDs, three tactical vehicles, a bridge, a fighting position, and a supply cache.
- Near Ayn Isa, two strikes engaged two ISIL tactical units and destroyed two fighting positions.

Iraq

- Near Bashir, one strike engaged an ISIL tactical unit; destroyed three ISIL-held buildings, an observation post, and a weapons cache.
- Near Mosul, three strikes engaged an ISIL tactical unit; destroyed four VBIEDS, two VBIED factories, a mortar, an ISIL-held building, a tactical vehicle, and a front-end loader; damaged an ISIL-held building, a tunnel, and eight ISIL supply routes; disabled a bridge; and suppressed a mortar and ISIL tactical unit.

Strike assessments are based on initial reports. All aircraft returned to base safely.

A strike, as defined in the CJTF releases, means one or more kinetic events that occur in roughly the same geographic location to produce a single, sometimes cumulative effect for that location.

Combined Joint Task Force

Operation Inherent Resolve
APO AE 09306

So having a single aircraft deliver a single weapon against a lone ISIL vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of buildings and vehicles and weapon systems in a compound, for example, having the cumulative effect of making that facility (or facilities) harder or impossible to use.

Accordingly, CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.

Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

The strikes were conducted as part of Operation Inherent Resolve, the operation to eliminate the ISIL terrorist group and the threat they pose to Iraq, Syria, and the wider international community.

The destruction of ISIL targets in Syria and Iraq further limits the group's ability to project terror and conduct operations. Coalition nations which have conducted strikes in Iraq include Australia, Belgium, Canada, Denmark, France, Jordan, the Netherlands, the United Kingdom, and the United States. Coalition nations which have conducted strikes in Syria include Australia, Bahrain, Canada, Denmark, France, Jordan, the Netherlands, Saudi Arabia, Turkey, United Arab Emirates, the United Kingdom, and the United States.
