

Combined Joint Task Force Operation Inherent Resolve

April 2, 2017
Release # 20170402-01
FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIS Terrorists in Syria and Iraq

SOUTHWEST ASIA – On Apr. 1, Coalition military forces conducted 16 strikes consisting of 76 engagements against ISIS terrorists in Syria and Iraq.

In Syria, Coalition military forces conducted nine strikes consisting of 31 engagements against ISIS targets.

- Near Ar Raqqa, five strikes engaged four ISIS tactical units; destroyed eight barges and five fighting positions; and suppressed an ISIS tactical unit.
- Near Palmyra, two strikes destroyed three ISIS command and control nodes, three supply caches, a checkpoint, and a bunker; and damaged three bunkers.
- Near Tabqah, two strikes engaged an ISIS tactical unit and suppressed an ISIS tactical unit.

In Iraq, Coalition military forces conducted seven strikes consisting of 45 engagements coordinated with and in support of the government of Iraq against ISIS targets.

- Near Kirkuk, one strike engaged an ISIS tactical unit.
- Near Mosul, six strikes engaged seven ISIS tactical units and an ISIS staging area; destroyed three rocket-propelled grenade systems, three fighting positions, a heavy machine gun, an artillery system, a weapons factory, and a VBIED factory; damaged seven supply routes and five fighting positions; and suppressed 12 ISIS mortar teams, four ISIS tactical units, and an ISIS sniper team.

Combined Joint Task Force Operation Inherent Resolve

These strikes were conducted as part of Operation Inherent Resolve, the operation to destroy ISIS in Iraq and Syria. The destruction of ISIS targets in Iraq and Syria also further limits the group's ability to project terror and conduct external operations throughout the region and the rest of the world.

This Coalition strike release contains all strikes conducted by fighter, attack, bomber, rotary-wing, or remotely piloted aircraft, rocket propelled artillery and some ground based tactical artillery when fired on planned targets. Ground-based artillery fired in counter-fire or in fire support to maneuver roles are not classified as a strike as defined by CJTF-OIR.

A strike, as defined in the Coalition release, refers to one or more kinetic engagements that occur in roughly the same geographic location to produce a single, sometimes cumulative effect in that location. For example, a single aircraft delivering a single weapon against a lone ISIS vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of ISIS-held buildings and weapon systems in a compound, having the cumulative effect of making that facility harder or impossible to use. Strike assessments are based on initial reports and may be refined.

CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.
