

Combined Joint Task Force Operation Inherent Resolve

October 14, 2017
Release # 20171014-01
FOR IMMEDIATE RELEASE

Military Strikes Continue Against ISIS Terrorists in Syria and Iraq

SOUTHWEST ASIA – On Oct. 13, Coalition military forces conducted four strikes consisting of four engagements against ISIS terrorists in Syria and Iraq.

In Syria, Coalition military forces conducted 3 strikes consisting of 3 engagements against ISIS targets.

- Near Abu Kamal, one strike destroyed one ISIS HQ structure.
- Near Al Shadaddi, two strikes engaged one ISIS tactical unit and destroyed two fighting positions and one logistics node.

In Iraq, Coalition military forces conducted one strike consisting of one engagement against ISIS targets.

- Near Al Qaim one strike destroyed one ISIS communications infrastructure.

Additionally, 7 strikes consisting of 10 engagements were conducted in Syria and Iraq on Oct. 12 that closed within the last 24 hours.

- Near Al Qaim, Iraq, two strikes destroyed one ISIS VBIED factory and one HQ structure.
- Near Ramadi, Iraq, one strike destroyed one ISIS camp.
- Near Raqqah, Syria, four strikes destroyed three ISIS lines of communication and one fighting position.

These strikes were conducted as part of Operation Inherent Resolve, the operation to destroy ISIS in Iraq and Syria. The destruction of ISIS targets in Iraq and Syria also further limits the group's ability to project terror and conduct external operations throughout the region and the rest of the world.

This Coalition strike release contains all strikes conducted by fighter, attack, bomber, rotary-wing, or remotely piloted aircraft, rocket propelled artillery and ground-based tactical artillery.

A strike, as defined in the Coalition release, refers to one or more kinetic engagements that occur in roughly the same geographic location to produce a single, sometimes cumulative effect in that location. For example, a single aircraft delivering a single

weapon against a lone ISIS vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of ISIS-held buildings and weapon systems in a compound, having the cumulative effect of making that facility harder or impossible to use. Strike assessments are based on initial reports and may be refined.

CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.
