Strike Summary

Between July 1 and July 31 2021, CJTF-OIR conducted a total of 4 strikes consisting of 6 engagements in Iraq and Syria.

In Iraq, CJTF-OIR conducted 1 strikes against Daesh targets consisting of 3 engagements.

In Syria, CJTF-OIR conducted 3 strikes against Daesh targets consisting of 3 engagements.

This CJTF-OIR strike release contains all strikes conducted by fighter, attack, bomber, rotary-wing, or remotely piloted aircraft, rocket propelled artillery and ground-based tactical artillery.

A strike, as defined in the CJTF-OIR release, refers to one or more kinetic engagements that occur in roughly the same geographic location to produce a single, sometimes cumulative effect in that location. For example, a single aircraft delivering a single weapon against a lone Daesh vehicle is one strike, but so is multiple aircraft delivering dozens of weapons against a group of Daesh-held buildings and weapon systems in a compound, having the cumulative effect of making that facility harder or impossible to use. Strike assessments are based on initial reports and may be refined.

CJTF-OIR does not report the number or type of aircraft employed in a strike, the number of munitions dropped in each strike, or the number of individual munition impact points against a target. The information used to compile the daily strike releases is based on 'Z' or Greenwich Mean Time.
