FOR IMMEDIATE RELEASE

Combined Joint Task Force - Operation Inherent Resolve Monthly Civilian Casualty Report

SOUTHWEST ASIA-- Since the beginning of operations in 2014, the Coalition and partner forces have liberated nearly 110,000 square kilometers (42,471 square miles) from Daesh, eliminating their self-proclaimed territorial caliphate and freeing 7.7 million people from Daesh oppression. The Coalition will continue to work with partner forces to deny Daesh any physical space and influence in the region as well as deny Daesh the resources they need to resurge.

We continue to employ thorough and deliberate targeting and strike processes to minimize the impact of our operations on civilian populations and infrastructure. This process includes thorough review and vetting of each target package prior to a strike and another review after that strike. Our regular strike reports make our activities publicly accessible, and our monthly publication of civilian casualty reports makes our civilian casualty assessments similarly accessible to the public.

As we have demonstrated, we are willing to consider new civilian casualty allegations as well as new or compelling evidence on past allegations to establish accountability based on the best available evidence.

The Coalition conducted 34,464 strikes between August 2014 and end of March 2019. During this period, based on information available, CJTF-OIR assesses at least 1291 civilians have been unintentionally killed by Coalition strikes since the beginning of Operation Inherent Resolve.

In the month of March, CJTF-OIR carried over 146 open reports from previous months and received seven new reports. CJTF-OIR completed 31 civilian-casualty allegation assessment reports; including two that had been previously closed but were reopened with the availability of new information. Out of the 31 completed casualty allegation reports, 11 reports were determined to be credible and resulted in 34 unintentional civilian deaths. One of the reports was determined to be a duplicate report and the remaining 19 reports were assessed to be non-credible. One hundred and twenty two reports are still open, including three that had been previously closed but were reopened due to the availability of new information.

Credible Reports--In these 11 incidents, the investigation assesses that the Coalition took all feasible precautions and the decision to strike complied with the law of armed conflict. Coalition forces work diligently to be precise during the planning and execution of airstrikes to reduce the risk of harm to civilians.

1. June 19, 2015, near Khanaiz village, north of Raqqah, Syria, via Airwars report. Coalition aircraft conducted a strike on Daesh terrorists. Regrettably, two civilians, and possibly a third, in passing vehicles (a bongo truck and a three-wheeled motorcycle) were unintentionally killed due to the proximity of the strike. 2432/S81 37SEA031111
